

# SAP Consultant (Senior WM Profile)

*All business areas of Weidmann (full time, based in Rapperswil (CH))*

Join our team, which strives for continuous learning and improvement.

## Allow us to introduce ourselves...

The Weidmann Group of companies is active in some of the world's most vital fields namely energy and medical. Our technology and our knowhow contribute crucial resources to a worldwide market, whether it be leading the global market in transformer electrical insulation, keeping the lights on for billions of consumers, or the delivery of a breakthrough drug through our advanced plastics technologies for medical and pharmaceutical applications.

## The role...

This **senior role** involves supporting both SAP ECC and SAP S/4HANA environments, enhancing logistics operations through digital transformation and best practices, focusing on **optimizing warehouse processes, ensuring seamless system integration, and driving automation initiatives**.

## How you'll make an impact...

- Serve as the primary consultant for **SAP WM/EWM**, providing expert guidance on warehouse structure, inventory management, and logistics execution; Design, configure, and customize SAP WM/EWM functionalities to optimize warehouse operations, including inbound/outbound logistics, stock movements, and storage control
- Identify and implement process improvements to enhance warehouse efficiency, reducing operational costs and ensuring compliance with logistics best practices; Support SAP WM/EWM implementations, from blueprinting and testing to go-live and post-implementation support
- Lead or support SAP ECC to SAP S/4HANA migration projects, focusing on WM to EWM transition strategies, data migration, and process reengineering
- Provide training and documentation for key users and warehouse staff, ensuring a smooth transition to new SAP WM/EWM functionalities

## What do you bring...

- 5+ years of experience in SAP WM/EWM consulting or equivalent roles; Extensive experience with SAP ECC WM and SAP S/4HANA EWM implementations. Deep understanding of SAP WM integration with MM, SD, PP, and TM modules
- Strong expertise in SAP WM functionalities, including stock management, bin determination, picking strategies, and warehouse control
- Hands-on experience with SAP EWM features, such as labor management, slotting/rearrangement, and wave management
- Experience with middleware solutions, barcode scanners, RFID, and automation tools for warehouse operations

## What do we offer?

- Company contribution of 50% to an annual rail pass and the employee also receives the entire transport network (ZVV/Ostwind)
- Contribution and support from the company for internal and external further education
- Home office options in accordance with guidelines
- Private insurance in case of accident
- Own cafeteria with food options at reasonable prices
- Central location in the middle of Rapperswil with close public transport connections and many restaurants and shopping opportunities

We look forward to hearing from you soon!
